

## BIBLIOGRAPHY

Contribution to the discussion of the papers read at I.A.E. 22nd January and 12th February 1908 Report of The laws of flight  
*Engineering*, 11th September 1908, pp.331-4 *Engineering*, 25th  
September, 1908, pp.423-6

Report of paper read before Section G of the British Association at Dublin, 8th September 1908

Report of Motor-car design: some problems peculiar to the design of the automobile

*Engineering*, 13th March 1908, pp.352-5, and 20th March 1908, pp.384-7 Report of paper read at Institution of Automobile  
Engineers, 11th March 1908 Discussion of The transmission of power from the engine to the road wheels in motor vehicles,  
by L.A.Legros

*Proc. Institution of Automobile Engineers*, session 1908-9, vol. 3, pp.362-4 Contribution to the discussion of paper read to  
I.A.E. Discussion of The weight of motor cars and motor car parts, by M.O'Gorman *Proc. Institution of Automobile  
Engineers*, session 1908-9, vol. 3, pp.135-8 Contribution to the discussion of paper read to I.A.E.

1909

Report of Aerial flight

*Engineering*, 30th April 1909, pp.599-601 *Engineering*, 14th May  
1909, pp.671-2

Report of the three Cantor Lectures, given at the Royal Society of Arts, 26th April,  
3rd May, and 10th May 1909 Discussion of Chains for power transmission, by

A.S.Hill

*Proc. Institution of Automobile Engineers*, session 1909-10, vol. 4, pp.342-3

Contribution to the discussion of paper read to I.A.E. Report of Dynamics of flight  
*Engineering*, 30th April 1909, pp.599-601

Report of lecture given at Institution of Automobile Engineers, April 1908 Summary of The flight of birds

*The Engineer*, 19th February 1909, pp.198-9, and 26th February 1909, pp.225-6 Summary of paper given by F.W.L. to  
Birmingham Natural History and Philosophical Society, 19th January 1909

1911

Discussion of American tendencies in motor-car engineering, by H.E.Coffin

*Proc. Institution of Automobile Engineers*, session 1911-12, vol. 6, pp.49-54

Contribution to discussion of paper read to I.A.E. Discussion of Engine design for taking advantage of h.p. rating rules,  
by L.H.Pomeroy

*Proc. Institution of Automobile Engineers*, session 1911-12, vol. 6, pp. 101-4

Contribution to discussion of paper read to I.A.E. Discussion of Problems relating to  
aircraft, by M.O'Gorman

*Proc. Institution of Automobile Engineers*, session 1910-11, vol. 5, pp.296-303

F.W.L., as President, opens the discussion of O'Gorman's paper read at I.A.E.

8th March 1911

Discussion of The rating of petrol engines, a Committee Report and Discussion Paper of the Institution of Automobile  
Engineers

*Proc. Institution of Automobile Engineers*, session 1910-11, vol. 5, pp.217-42 Paper written by Horsepower Formula

Committee of the I.A.E. Discussion of The use of pressed steel in automobile construction, by L.A.Legros *Proc. Institution  
of Automobile Engineers*, session 1910-11, vol. 5, pp.371-83 F.W.L., as President, opens the discussion of Legros' paper read  
at I.A.E. 10th May 1911

## REPORTS AND DISCUSSION

1916

Air defence problems and fallacies: the failure of the Derby Committee  
*Land and Water*, 20th April 1916, pp.12-14 *Aircraft in warfare: the dawn of the fourth arm*  
 Constable & Co., 1916 Aircraft policy, and the Zeppelin menace from the national standpoint  
*Land and Water*, 23rd March 1916, pp.17-18, and 30th March 1916, pp. 13-14  
 Two articles Britain's aeroplane policy  
*Land and Water*, 10th February 1916, pp.13-14, and 17th February 1916, pp.15-16  
 Two articles  
 Development of the military aeroplane: the question of size  
*Engineering*, 3rd March 1916, pp.212-14  
 F.W.L.'s replies to subsequent correspondence in *Engineering*, 28th April 1916, pp.409,  
 and 12th May 1916, pp.460 *The flying machine from an engineering standpoint... including A Discussion concerning the theory*  
*of sustenation and the expenditure of power in flight*, a paper presented at a meeting of the International Engineering  
 Congress, San Francisco, 1915  
 Constable & Co., 1916  
 Reprint of James Forrest Lecture given to Institution of Civil Engineers, 5th May 1914  
*The interference of superposed planes*  
 Advisory Committee for Aeronautics, [report] T. 708a, 1916 Cyclostyled report to A.C.A.; continuation of Report T. 708  
*Note*  
 Advisory Committee for Aeronautics, [memorandum] T. 673/1, 1916  
 Cyclostyled memo, to A.C.A. Subcommittee on the Capabilities of an Aeroplane in  
 relation to its size.  
*Note on the conditions which determine the cyclical component round an aerofoil*  
 A.C.A.?, 1916 Rise and fall of the French Air Ministry  
*Land and Water*, 11th May 1916, pp.10-12 The sea and the air: the future of the Air Board: a lesson from naval history  
*Land and Water*, 29th June 1916, pp. 13-14 The so-called "air muddle", and some of its exponents  
*Land and Water*, 18th May 1916, pp.17-18 A study concerning the best proportion for a stream-line body  
*Engineering*, 19th May 1916, pp.465 Then and now: the difficulties of the pioneer designers  
*Autocar*, 4th November 1916, pp.478-80 *Torsional vibrations of the tail of an aeroplane*  
 Advisory Committee for Aeronautics, 1916  
 Its Reports and Memoranda, No. 276 Worm gear and worm gear mounting  
*Proc. of Institution of Automobile Engineers*, session 1916-17, vol. 11, pp.79-138H  
 pp. 140-72 includes discussion  
 Paper given to I.A.E. 13th December 1916

1917

Aerodnetics, constituting the second volume of a complete work on aerial flight  
 Constable & Co., 1908; reprint of second ed. published by Constable in 1910. Fiat volume was published in 1907; this  
 volume includes appendices on the theory and application of the gyroscope, on the flight of projectiles, etc.  
 The Air Ministry  
*Flying*, 21st November 1917, pp.275-6, and 5th December 1917, p.307-8  
 Two articles The air raid of July 7th  
*Flying*, 18th, July 1917, pp.479-80 A campaign of slander: a few facts  
*Flying*, 15th August 1917, pp.51-4 The defence of London: II: formation flying  
*Flying*, 1st August 1917, pp. 19-20 Flying as affected by the wind  
*Flying*, 26th September 1917, pp.147-8 Flying as affected by the wind: the economic aspect  
*Flying*, 12th September 1917, pp.115-16 *Flying* reprisals competition  
*Flying*, 5th September 1917, pp.99-100 Formation flying  
*Flying*, 25th July 1917, pp.3^1 Formation flying as taught by nature  
*Flying*, 8th August 1917, pp.35-7 The foundation stones  
*Flying*, 19th December 1917, pp.354-56 The handicap of the wind  
*Flying*, 29th August 1917, pp.83^1 *Industrial engineering: present position and post-war outlook*  
 Constable & Co., 1917  
 Presidential address to the Junior Institution of Engineers, 11th December 1916 *Memorandum on the use of aluminium alloy sheet*  
*in place of fabric for aeroplane wings, etc.*  
 Advisory Committee for Aeronautics, 1917  
 Its Reports and Memoranda (new series), No. 359 The military aspects of reprisals  
*Flying*, 17th October, 1917, pp.209 Moonbeams and the larger lunacy  
*Flying*, 10th October 1917, pp. 186-187 Vertical climb or direct lift: the chaser of the future  
*Flying*, 14th November 1917, pp.259-60

## REPORTS AND DISCUSSION

1918

*Aerodynamics, constituting the first volume of a complete work on aerial flight* Fourth ed., Constable & Co., 1918; first ed. published by Constable in 1907 "Except for correction of errata, revisions of a minor character, and some few references to later work, no change has been made in the work since the publication of the first edition"

*High altitude flying*

Advisory Committee for Aeronautics, 1918 Its Reports and Memoranda, No. 534

Industrial economics during and after the war

*Journal of the Junior Institution of Engineers*, vol. 29, part 2, 1918, pp.2-32 Presidential address to J.I.E. 22nd January 1918

1919

*The aftermath of the war: economic and industrial problems*

Birmingham, Buckler & Webb, 1919

Presidential Address to the Vesey Club, 20th January 1919

1921

Relativity

*Engineering*, 2nd April 1921, pp.477-9, and 29th April 1921, pp.514-16 Spur gear erosion

*Engineering*, 17th June 1921, pp.733-4

1922

An investigation of certain aspects of the two-stroke engine for automobile vehicles

*Proc. Institution of Automobile Engineers*, session 1921-2, vol. 16, pp.3-36; pp.37-51 include discussion

Paper given to I.A.E. 11th January 1922

1924

*Epicyclic gears*, by F.W.Lanchester and G.H.Lanchester

Midlands Branch of Institution of Automobile Engineers, 1924 Paper given by F.W.L. to Midlands branch of I.A.E. 26th April 1923

Worm gear: its production and efficiency and its application to turbine reduction gearing

*Engineering*, 1st February 1924, pp. 131-2

1926

Sustentation in flight

*Journal of the Royal Aeronautical Society*, 1926, pp.589-606

Wilbur Wright Memorial Lecture given to R. Aero Soc, 27th May 1926

1928

Automobile steering gear: problems and mechanism

*Proc. Institution of Automobile Engineers*, session 1927-8, vol. 22, pp. 727-51;

pp. 752-71 include discussion and communications

Paper given to I.A.E. 6th March 1928 Automobile steering gear: problems and mechanism

*Automobile Engineer*, vol. 18, no. 239, March 1928, pp. 102-6; with appendix by

R.H.Pearsall, pp. 106-8 India-rubber as an auxiliary to suspension

*Proc. Institution of Automobile Engineers*, session 1927-8, vol. 22, pp.575-94;

pp.595-9 include discussion

Paper given at joint meeting of I.A.E. and Institute of Rubber Industry January 1928 India-rubber as an auxiliary to suspension

*Automobile Engineer*, vol. 18, no. 242, June 1928, pp.226-30

1929

Communication on Automatic spark advance, by H.S.Rowell and C.G.Williams *Proc. Institution of Automobile*

*Engineers*, session 1928-9, vol. 23, pp.623-4 Written communication on paper given to I.A.E. 9th April 1929

Coil ignition

*Proc. Institution of Automobile Engineers*, session 1928-9, vol. 23, pp.214-44;

pp.245-66 include discussion

Paper given to I.A.E. 7th January 1929

1933

Air-gap transformer and choke

*Journal of the Institution of Electrical Engineers*, vol. 73, no. 442, October 1933, pp.413-18

The anti-dazzle problem: a solution to the difficulty?: details of a system which has been in use for five years

*Autocar*, 5th May 1933, pp.740-1 Pioneer work: a reply from Dr.

Lanchester

*Autocar*, 17th March 1933, pp.431F.W.L.'s reply to articles on detachable wheels published in *Autocar*, 17th February 1933, p.247, and 3rd March 1933, p.324

1934

*Directional fixity and the transitory visual impression or fleeting image*

Birmingham, the author, 1934

Typescript edition of 12 copies Discontinuities in the normal field of vision

*Journal of Anatomy*, vol. 68, 1934, part 2, pp.224-38 The expansion of the universe*Engineering*, 5th January 1934, pp. 3-4

1935

*The Centenarian: a Lakeland story told in verse*, by Paul Netherton-Herries Birmingham, Cornish Brothers Ltd, 1935Paul Netherton-Herries was the pseudonym F.W.L. used for his verse publications *Relativity: an elementary explanation of the space-time relations as established by Minkowski, and a discussion of gravitational theory based thereon*

Constable &amp; Co., 1935

1936

Electrical dimensions and units

*Engineering*, 25th September 1936, pp.347-50, and 2nd October 1936, pp.376-7; *Engineering*, 6th November 1936, pp.498-9, 4th December 1936, p.622, 11th December 1936, pp.647-8, and 19th February 1937, pp.201-2 include F.W.L.'s replies to subsequent correspondence.Two-part article of paper given at British Association meeting 14th September 1936. A reprint contains all above, plus an appendix of matters omitted from the *Engineering* articles*A King's prayer, and other poems*, by Paul Netherton-Herries The author, 1936

Paul Netherton-Herries was the pseudonym F.W.L. used for his verse publications Motor car suspension and independent springing

*Proc. Institution of Automobile Engineers*, session 1935-6, vol. 30, pp.668-726; pp.727-62 include discussionAlso published in *Journal of the Institution of Automobile Engineers*, vol. 4, part 7,

April 1936, pp. 17-77, without discussion

Paper given to I.A.E. in April 1936 Communication on Needle roller bearings, by

C.H.Smith

*Proc. Institution of Automobile Engineers*, session 1935-6, vol. 30, pp.359-60

Written communication on paper given to I.A.E. 21st January 1936 The part played by skin-friction in aeronautics

*Nature*, vol. 138, 12th December 1936, pp.1022-3

Synopsis by F.W.L. of his Thomas Hawksley Lecture A study of the dynamo based on dimensional theory

*The Engineer*, 27th November 1936, pp.578-80 *The theory of dimensions, and its application for engineers*

Crosby Lockwood and Son Ltd., 1936

1937

## At high altitude

*Journal of the Royal Aeronautical Society*, vol. 41, no. 317, May 1937, pp.388-400, and no. 318, June 1937, pp.437-66 The future of the airship

*Engineering*, vol. 143, no. 3724, 28 May 1937, pp.613-14 *The gas engine and after*  
London, Institution of Mechanical Engineers, 1937

24th Thomas Hawksley Lecture given to Institution of Mechanical Engineers,  
5th November 1937 The Lanchesters

*The Autocar*, 13th August 1937 The part played by skin-friction in  
aeronautics

*Journal of the Royal Aeronautical Society*, vol. 41, no. 314, February 1937, pp.68-113;  
pp. 113-31 include discussion; vol. 41, no. 316, April 1937, pp.322-3 contain errata

Lecture read to R. Aero. Soc. 12th November 1936 The treatment of problems in  
engineering by dimensional theory

*Proc. Institution of Automobile Engineers*, session 1936-7, vol. 31, pp.545-71;

pp.572-92 include discussion; also *Journal of the I.A.E.*, vol. 5, no. 5, February 1937,  
pp. 17-43

Paper given to I.A.E. in February 1937 Reply by F.W.Lanchester to criticism [by R.C.Porter] of his Theory of dimensions, in  
*Engineer*, vol. 163, no. 4245, 21st May 1937, pp.598

*Engineer*, vol. 163, no. 4248, 11th June 1937, pp.679-80; "further polemic" in no. 4249, 18th June 1937, pp. 696-7

1938

## Energy balance sheet of the gas engine

*Engineering*, vol. 145, no. 3756, 7th January 1938, pp.4-5; no. 3758, 21st January 1938, pp.55-6; no. 3760, 4th February  
1938, pp.114-17; no. 3762, 18th February 1938, p.188; no. 3767, 25th March 1938, pp.319-21; no. 3770, 15th April 1938,  
pp.407-10; no. 3774, 13th May 1938, pp.522-5; and supplementary data and corrections in vol. 146, no. 3785, 29th July  
1938, pp. 137-8 Independent springing

*Proc. Institution of Automobile Engineers*, session 1937-38, vol. 32, pp.409-29;

pp.438-69 include discussion and communications (pp.466-8 by F.W.L.)

Two papers, with the same title, one by F.W.L. (pp.409-29), the other (pp.430-7) by

G.H.L. given to I.A.E. 4th January 1938 *Lanchester's potted logs: a concise tabulation (slide rule auxiliary) for engineers*  
Taylor and Francis, 1938

First edition of Part 1 of Potted logs *Second annual lecture on "Span" Manchester*, Butterly & Wood Ltd, 1938

Lecture given to Manchester Association of Engineers, 9th November 1938 also published in *Trans. of the Manchester*  
*Association of Engineers*, session 1938-9, part 3, pp.59-99; pp.99-100 include discussion

1939

## The Energy balance sheet of the internal combustion engine

*Proc. Institution of Mechanical Engineers*, vol. 141, 1939, pp.289-338

Paper given at Institution of Mechanical Engineers, 17th March 1939; "Amplification and revision of *The energy balance sheet of*  
*the gas engine*"

## The Energy balance sheet of the internal combustion engine

*Engineering*, vol. 147, no. 3820, 31st March 1939, pp.388-9, and no. 3822, 14th April 1939, pp.448-50; *Engineering*, vol.  
147, no. 3821, 7th April 1939, p.411 include Erratum Abridged version of paper given at Institution of Mechanical  
Engineers, 17th March 1939

## Exhaust efflux propulsion

*Flight*, 16th November 1939, pp.396a-d, 23rd November 1939, supp. p.d and p.417,  
7th December 1939, p.460, and 14th December 1939, pp.495-6; *Flight*, 28th December  
1939, pp.526-7 includes correspondence and F.W.L.'s replies thereto

Four articles; fifth was published in 1941, see below Flying boat entrance lines

*Engineering*, vol. 148, no. 3944, 15th September 1939, pp.298-9 *Lanchester's potted logs: a concise tabulation (slide rule*  
*auxiliary) for engineers, part 2: the natural logarithms and other tables* Taylor and Francis, 1939

First edition of Part 2 of Potted logs *Lanchester's potted logs, parts 1 and 2*

[revised second ed.], Taylor and Francis Ltd., 1939

## The maximum range of flight

*Engineering*, vol. 148, no. 3840, 18th August 1939, pp.203-5, and no. 3841, 25th August  
1939, p.217

## Rocket efficiency

*Flight*, 28th December 1939, pp.526-7

Replies to correspondence re. his articles on Exhaust efflux propulsion Tests of steel air-raid shelters

*Engineering*, vol. 147, no. 3815, 24th February 1939, pp.216-17

## Letter from F.W.L. The unaccounted drag of aircraft

*Engineering*, vol. 148, no. 3848, 13th October 1939, pp.403-6

*Engineering*, no. 3855, 24th November 1939, pp.590 includes F.W.L.'s reply to subsequent correspondence

1940

## "Boost": long distance flying and take-off problem

*Flight*, vol. 38, no. 1650, 8th August 1940, pp. 109-10 Effect of windage on projectiles, with special reference to aeroplane  
gunnery

*Flight*, vol. 38, no. 1634, 5th September 1940, pp.186f-h Formation flying

*Flight*, vol. 37, no. 1631, 28th March 1940, pp.286e-f, and pp.287-9 The rear engine: its pros and cons

## REPORTS AND DISCUSSION

*Autocar*, vol. 84, 22nd March 1940, pp.300-2

1941

Contra-props: recollections of early considerations by Advisory Committee for Aeronautics; a pioneer's 1907 patent; suggestions for further research

*Flight*, 11 December 1941, vol. 40, 1720, pp.418-9 Exhaust efflux propulsion - V

*Flight*, vol. 39, no. 1686, 17th April 1941, pp.285-6

Last of five articles in *Flight*, earlier ones were published in 1939, see above Exhaust efflux propulsion

*Mechanical Engineer*, vol. 63, no. 9, September 1941, pp.672-3

*The musical scale*

Birmingham, the author, 1941

Cyclostyled edition limited to 30 copies The propeller. How many blades?

*Journal of the Royal Aeronautical Society*, vol. 45, no. 368, August 1941, pp.267-74 Rocket propulsion

*Flight*, vol. 40, no. 1702, 7th August 1941, pp.78-80, and no. 1706, 4th September 1941, pp.135-6

1942

Contra-props

*Flight*, vol. 40, no. 1720, 11th December 1941, pp.418-19 Lanchester's law

*Engineering*, vol. 154, no. 3998, 28th August 1942, p. 174

Comment by F.W.L. on article with same title by "Sirius" in *Engineering*, vol. 154, no. 3996, 14th August 1942, pp. 123-4

*Relativity and radiation*

Birmingham, the author, 1942

Typescript copy, prepared for printers in Lanchester Collection; never published commercially

1944

Preface, and Appendix [to The aftermath of the war ..., the presidential address to the Vesey Club, 1919]

Typescript, so although bound with a reprint of the address, may not have been published.

Appendix is Currency and inflation, comments on the Cunliffe Report (first interim report of the Committee on Currency and Foreign Exchanges after the War)1945

*The musical scale*

Second ed., Birmingham, the author, 1945

Edition limited to 60 copies, numbered 81-100 (?); includes amendments from first ed., 1941

## REPORTS AND DISCUSSION

1894

Report of The soaring of birds and the possibilities of mechanical flight

*Reports of Meetings: General Meeting, of the Birmingham Natural History and Philosophical Society, 19th June 1894*  
F.W.L. gave an address with this title (see p.271)

1905

Communication on The pendulum accelerometer, an instrument for the direct measurement and recording of acceleration, by  
F.W.L., communicated by C.V.Boys *Proc. Physical Society*, vol. 19, 1905, pp.691-701

1907

Discussion of Accessibility and cleanliness, and the best means of attaining them, by  
F.L.Martineau

*Proc. Institution of Automobile Engineers*, session 1906-7, vol. 1, pp.50-1 Contribution to the discussion of Martineau's  
paper read at I.A.E. 16th January 1907

Discussion of Future of automobilism, by R.E.Crompton

*Proc. Institution of Automobile Engineers*, session 1907-8, vol. 2, pp. 17-19 Contribution to the discussion of Crompton's  
paper read at I.A.E. 20th November 1907

Discussion of The motor car considered as a carriage, by William Gilchrist

*Proc. Institution of Automobile Engineers*, session 1906-7, vol. 1, pp.307-11 Contribution to the discussion of Gilchrist's  
paper read at I.A.E. 12th June 1907

Discussion of The principles of the carburetter as determined by exhaust gas analysis, by Dugald Clerk

*Proc. Institution of Automobile Engineers*, session 1907-8, vol. 2, pp.69-72 Contribution to the discussion of Clerk's paper read at  
I.A.E. 11th December 1907

1908 Hfl Discussion of The effect of motors on roads, by W.J.Taylor and Douglas Mackenzie; and Notes on wheel diameters, by  
R.E.Crompton

*Proc. Institution of Automobile Engineers*, session 1907-8, vol. 2, pp. 399-400 Contribution to the discussion of two papers read  
at I.A.E. 13th May 1908 Discussion of The effect of size and speed upon the performance of an internal combustion  
engine, by B.Hopkinson

*Proc. Institution of Automobile Engineers*, session 1908-9, vol. 3, pp.239-42 Contribution to the discussion of paper read to  
I.A.E. Discussion of Front driving, with special reference to electric and hydraulic transmission, by H.S.Hele-Shaw,  
R.W.Harvey Bailey and J.S.Critchley

*Proc. Institution of Automobile Engineers*, session 1907-8, vol. 2, pp. 157-63

1925

Discussion of A review of the rating question, by A.E.Berriman

*Proc. Institution of Automobile Engineers*, session 1924-5, vol. 19, pp.374-80 Contribution to discussion of paper given to  
I.A.E. January 1925

1926

Discussion of Experiments in laminated springs, by H.S.Rowell

*Proc. Institution of Automobile Engineers*, session 1925-6, vol. 20, pp.628-32 Contribution to discussion of paper given to  
I.A.E. April 1926

Discussion of The optical indicator as a means of examining combustion in exploding engines, by W.Morgan and A.A.Rubbra

*Proc. Institution of Automobile Engineers*, session 1926-7, vol. 21, pp.200-1 Contribution to discussion of paper given to  
I.A.E. December 1926

Discussion of Pneumatic tyres for heavier loads, by C.Macbeth

*Proc. Institution of Automobile Engineers*, session 1925-26, vol. 20, pp.558-9 Contribution to discussion of paper given to  
I.A.E. March 1926

1936

Editorial review of The part played by skin friction in aeronautics

*Engineering*, vol. 142, no. 3698, 27th November 1936, pp.588-9 Review of paper given before Royal Aeronautical Society, 12th  
November 1936; for full text see p.000 above Motor car suspension and independent springing  
*Engineering*, vol. 141, no. 3665, 10th April 1936, pp.394-6, and no. 3667, 24th April 1936, pp.464-5

Correspondence re United States Patent Office refusal to accept F.W.L.'s patent application 259452 in 1918

*Journal of the Institution of Automobile Engineers*, vol. 4, part 9, June/July 1936, pp.4-6

1937

Contribution to discussion and written communication by F.W.Lanchester relating to paper Profile drag by Prof. B.Belvill Jones  
*Journal of the Royal Aeronautical Society*, vol. 41, 1937, pp.358, and 363-5 Contribution to discussion on Plastic materials for  
aircraft construction, by N.A.de Bruyne

*Journal of the Royal Aeronautical Society*, vol. 41, 1937, p.580 Report of The Gas engine and after  
*The Engineer*, vol. 164, no. 4270, 12th November 1937, pp.538-9, and no. 4271,  
19th November 1937, pp.556-7

1938

Report of Independent springing, under the title Independent rear wheel suspension for touring cars

*Engineering*, vol. 145, no. 3757, 14th January 1938, pp.41-2

1939

Editorial review of *The Energy balance sheet of the internal combustion engine*

*Engineer*, vol. 167, no. 4341, 24th March 1939, pp.377-8 Editorial review of *Span*  
*Engineering*, vol. 147, no. 3815, 24th February 1939, pp.223-4

## REPORTS AND DISCUSSION

Discussion of Wheel and road, by A.Mallock

*Proc. Institution of Automobile Engineers*, session 1910-11, vol. 5, pp.326-44

F.W.L. as President, opens the discussion of Mallock's paper read at I.A.E. 8th March 1911

1912

Vote of thanks to T.B.Browne for his Presidential Address [on the recent development of the automobile industry]

*Proc. Institution of Automobile Engineers*, session 1912-13, vol. 7, pp.30-1

Discussion on The influence of low production cost on quality, by D.Leechman *Proc. Institution of Automobile Engineers*, session 1912-13, vol. 7, pp.503-4 Contribution to discussion of paper read to I.A.E. on 12th October 1912

1913

The internal combustion engine applied to railway locomotion

*Engineering*, 19th September 1913, pp.381-2 Summary of Internal-combustion motors

for railways ... Report of Catastrophic instability in aeroplanes

*Engineering*, 24th October 1913, pp.574-5

Summary of paper given to Section G of the British Association meeting at Birmingham in October 1913 Discussion of The wheel and the road, by R.E.Crompton

*Proc. Institution of Automobile Engineers*, session 1912-13, vol. 7, pp.427-9 Contribution to discussion of paper read to I.A.E. on 9th April 1913

1915

Report of A contribution of the theory of propulsion and the screw propeller

*Engineering*, 2nd April 1915, pp.392-5

Report of paper given at Institution of Naval Architects, 25th March 1915

1916

Report of interview with F.W.L. on Air raid precautions: why they are not yet available: Mr. Lanchester's views *Birmingham Daily Mail*, 12th February 1916, p.6

1920

Discussion of Roads and vehicle maintenance, by R.E.B.Crompton

*Proc. Institution of Automobile Engineers*, session 1920-21, vol. 15, pp. 185-6 Contribution to discussion of paper given to I.A.E. 8th December 1920

1921

Discussion of Notes on motor car gear-boxes, by H.F.L.Orcutt

*Proc. Institution of Automobile Engineers*, session 1921-2, vol. 16, part 1, pp. 305-7 Contribution to discussion of paper given to I.A.E. 14th December 1921

Discussion of Suggested lines of development in transmission, by S.Bramley-Moore *Proc. Institution of Automobile Engineers*, session 1920-21, vol. 15, pp.309-22 Contribution to discussion of paper given to I.A.E. 12th January 1921

1922

Discussion of An account of some experiments on the action of cutting tools, by E.G.Coker and K.C.Chakko

*Proc. Institution of Mechanical Engineers*, vol. 1, 1922, pp.603-4 Contribution to discussion of paper given to I.A.E. April 1922

1924

Discussion of Balancing of automobile engines, by H.S.Rowell

*Proc. Institution of Automobile Engineers*, session 1923-4, vol. 18, part 2, pp.525-6 Contribution to discussion of paper given to I.A.E. 25th March 1924
